Add this unique remote-access storage system to your wired or wireless network and you'll have a surprisingly simple and secure way to access and share data and photos at home, in the office, and anywhere in the world—even when your local computer is off. The included RAID software makes it easy for you to take advantage of RAID mirroring for extra data protection.

### Product Features

**WD Anywhere Access™**—This storage system and all the files on it are always accessible when you need them, even when your local computer is turned off.

**Easy to set up, easy to use**—You're up and running in a few simple steps. Wizard software steps you through RAID configuration and network setup is a breeze with our unique, powerful remote access software.

**Data OnHand**—From any PC, use Windows® Explorer to securely browse through folders on My Book World Edition II. Open, edit, and save files as though they are right there with you.

**Extra data protection with RAID 1**—For extra data protection, dedicate half the capacity for mirroring, and automatically and instantaneously back up data every time you save it.

**Extraordinary capacity**—With up to two terabytes (2,000 GB) of storage in this elegant, small footprint design, you have plenty of room to store an entire digital photo library, up to 120 hours (???) of HD video, or up to 76 hours (???) of Digital Video (DV).

**User serviceable**—Easy access allows you to open the case and replace a drive. No need to send the entire system in for service.

**Gigabit Ethernet Connection**—1000/100/10 compatible Ethernet connection.

**EMC® Retrospect® Express backup software**—Easy-to-use software for scheduled or on-demand file backup.

**UPnP enabled**—Makes network configuration easy and convenient

**Capacity gauge**—See at a glance how much space is available on your storage system.

**Quiet and cool**—An efficient convection cooling system and a thermostatically controlled fan keep this unit reliably cool and remarkably quiet.
