Lighten your workload

HP Compaq 2510p Business Notebook PC

With a starting weight of just 1.30 kg, the HP Compaq 2510p Business Notebook PC is our smallest and lightest business notebook and designed to go wherever you need to go.

Keeps the ultra mobile—ultra-productive
Configure your HP 2510p with an integrated optical drive for enhanced convenience and productivity or go without for lightweight mobility. Dual-pointing devices (touchpad with scroll zone and pointstick) give you the flexibility to choose the solution that works best for you. A choice of Intel® Core™2 Duo Ultra Low Voltage processors with Intel® Centrino® Pro [1] mobile technology helps reduce the total cost of operating and managing your PC with built-in remote manageability, proactive security, and energy efficiency.

Power that goes with you
A 12.1-inch diagonal widescreen Illumi-Lite display provides with you with a slim and light notebook PC while extending your battery's run time by up to 90 minutes over a notebook with traditional LCD backlighting. The HP 2510p also offers three flexible battery solutions for lightest weight configurations or all-day computing.

Enjoy wireless in more places
Whether you're across the street or across the country, HP Broadband Wireless [2] allows you to conveniently stay connected in more places. You also have the flexibility to add HP Broadband Wireless at a later date.

HP Professional Innovations help you focus on your business
Built to protect. An array of multi-layered security solutions can be tailored to help defend your network, applications, and data. The new Drive Encryption for HP ProtectTools encrypts all information on the hard drive volume so it becomes unreadable to an unauthorised person. Built to simplify. Boost your productivity while maximising simplicity with features such as HP QuickLook [3]. Quickly browse your email, calendars, and contact information with a touch of a button whether your PC is turned on or not. Built to last. Reliable features such as HP DuraKeys, HP DuraFinish, full magnesium alloy enclosure, and HP 3D DriveGuard help your notebook go the distance.
