

My Book[®] Live[™]

Personal Cloud Storage

**Shared storage for
computers, tablets,
and smartphones**

Create your own personal cloud

Back up your files wirelessly

Stream media to your entertainment center

Connect this powerful drive to your wireless router for shared storage on your home network that you can access within and outside the home. Share files with Mac[®] computers and PCs, stream media to your entertainment center, and access files on the go with remote access and apps for your mobile devices.

PUT YOUR LIFE ON IT[®]

My Book Live

Personal Cloud Storage

Product Features

Your media and files on your own personal cloud

Create your own personal cloud, without the monthly fees and mysterious location of your data. Store your media and files on the drive and access them securely over the Internet. Or, use WD's mobile apps for easy access with your tablet or smartphone. It's like having up to 3 TB of extra storage for your mobile device.

Now streaming to your HDTV

Watch your daughter's birthday party video or show off your vacation slideshow on your TV. The built-in media server streams music, photos and movies to any DLNA™-certified multimedia device such as a WD TV® Live™ network media player, Blu-ray Disc™ player, Xbox 360®, PlayStation® 3, and connected TV. DLNA 1.5 & UPnP™ certified.

Serve up your music with iTunes®

The drive includes iTunes server support so you can centralize your music and video collection and stream it to any Mac or PC with iTunes.

Shared storage for all your computers

Now you can store your entire family's movies, music, photos, and important files to one place for everyone in the home to share. Just plug the drive into your wireless router so that you can store and access files with any PC or Mac computer in your home.

Automatic, wireless backup for all your computers

Protect your precious memories and wirelessly back up all the PC and Mac computers on your network to one reliable location. Windows® users can use the included WD SmartWare™ software and every time you save something, it's instantly backed up. Mac users can utilize all the features of Apple® Time Machine® backup software to protect their data.

Speed without compromise

Built with an 800 MHz CPU for maximum performance to power all your applications from streaming to remote access. Designed around the most recent advances in Ethernet chip technology, this product delivers best-in-class read speeds faster than traditional USB 2.0 drives.

Easy to set up, easy to find on your network

In just a few minutes, you're up and running. Mac, Windows 7, and Windows Vista® computers will automatically find your My Book Live drive in seconds. If you're running Windows XP, our simple discovery software makes it easy to set up the drive.

Access stored photos and files with apps for iPad®, iPhone®, iPod touch®, Android™, BlackBerry®, and Windows® smartphones and tablets.
