

hp no.29 black inkjet print cartridge

The HP No.29 (51629ae/ge) Black Inkjet Print Cartridge is a high quality and extremely versatile cartridge used mainly with the HP Deskjet 600 series and the HP Deskwriter 600 series; it is also compatible with the All-in-one HP Officejet 500, 600 and 700 series.

Being a component of the HP printing system, the HP No. 29 cartridge works together with HP printers and papers to deliver best in class print quality at all times.

economical high quality printing

High density pigment-based ink ensures crisp black text and graphics from the first to last page. This proprietary ink is also water-resistant and fast drying. The No.29 cartridge provides an attractive combination of competitive pricing and the high quality output that customers expect of HP inkjet supplies.

maximum productivity and convenience

The No.29 cartridge's 40ml capacity produces an average of 650 pages at 5% density, offering a competitive cost-per-page for frequent users. A simple drop-in, snap-out action allows quick, easy and clean replacement.

low cost option for low volume users

In addition to the standard cartridge, there is also a reduced volume option (51629ge)* with a 20ml capacity, which produces on average 325 pages at 5% density. This product is designed to appeal to low volume or infrequent users, for whom a low cartridge price is often a key purchasing decision.

*Available in the UK, France and Ireland only.

hp no.29 black inkjet print cartridge

frequently asked questions

with which printers will the No.29 black cartridge work?

The No.29 black inkjet print cartridge has been designed to work together with the HP Deskjet 600 series and the HP Deskwriter 600 series. It is also compatible with HP Officejets 500, 590, 635, 700, 710 and 725. This cartridge, together with HP papers and films, have been designed together to deliver results that are always clear and always sharp.

how many pages will the No.29 cartridge print?

The precise yield of any cartridge depends on the amount of ink used on each page printed. On average though, this cartridge will produce 650 pages at 5% density.

what are the benefits of hp pigmented inks?

Proprietary water-resistant black HP ink has a high optical density and resists fading longer. These benefits combine to deliver optimal print quality – text and graphics – for the first page to the last.

what are the main applications for printing with the No.29 cartridge?

As this cartridge is compatible with such a wide range of HP printers, the list of applications is virtually limitless. At the office, typical uses will be correspondence, business reports and presentations, while home users can produce high quality newsletters, school work, letters and much more.
