HP Scanjet Enterprise 9000 Sheet-feed Scanner

Boost productivity, improve workflows, and still get the high-quality results you demand with easy and reliable scanning. This A3 sheet-feed scanner can be used as a standalone solution or easily integrates into existing document management systems.

The HP Scanjet Enterprise 9000 Sheet-feed Scanner is designed for IT managers in managed enterprise environments that need robust document scanning – from ID card size up to A3 – for departments tied into document management systems.

Fast and reliable A3 sheet-feed document scanning.

Get fast, reliable scanning and the ability to capture everything from ID cards up to A3 size documents. Complete the job faster with instant lamp warm-up and scanning at up to 60 ppm/120 ipm at up to 300 dpi resolution¹. Boost productivity with two-sided scanning, a 150-page automatic document feeder² and a duty cycle of up to 5,000 pages per day. Enhance image quality with Kofax VRS® Pro and reduce file sizes by filtering background colours with multi-colour drop-out.

Save time with robust, precise paper handling.

Confidently scan documents with HP Precision Feed technologies. The scanner not only separates and feeds pages through, but also adjusts feeding if it fails to pick up a page, or notifies the user if it senses it picked up too many. Scan multiple documents types at once, including mixed stacks, ledgers, plastic ID cards and even log strip paper and medical test strips³. Even scan different batches together and separate them into individual files with bar codes, blank pages or page count.

Sophisticated scanning at the touch a button.

Centralise and simplify scanner management and save IT time with industry-leading HP Web Jetadmin. Automate document workflows and reduce IT calls with a scanner sophisticated enough for your enterprise, and simple enough for everyday users. Users can scroll through scan profiles and launch tasks at the push of a button. Seamlessly integrate into your existing document management system with ISIS, TWAIN, and WIA drivers. Kofax Virtual ReScan® Pro and I.R.I.S. Readiris™ Pro also included⁴.

- ¹ Speeds attained at up to 300 dpi resolution using HP Smart Document Scan Software, A4 paper, in landscape mode
- 2 150-page stack size is calculated using 75 g/m2 bond paper
- 3 A8 to A3 size documents from 49 to 120 g/m2
- 4 IRIS ReadIris PRO OCR works with Windows® 2000, XP and Vista only.
